TECHNICAL SKILLS

Coding Languages: Python, C++, R, LaTeX

Developer Tools: Spyder, R-Studio, VS Code

Libraries: NumPy, SymPy, Matplotlib, pandas

Other Skills: Google / Microsoft Suite, Video and Audio Editing, Camera use

EDUCATION

Texas A&M University

Galveston, TX

BS Computer Science with Math Minor and Statistics Focus

Aug. 2023 – December 2027

- Orientation and Transition Leader for New Student Conferences
- Sea Aggie Learning Traditions (S.A.L.T) camp counselor and Sea Team member
- Working and volunteering anywhere between 15-30 hours per week while maintaining full-time student status

EXPERIENCE

Lead Audio-Visual Technician

September 2023 – Current

Texas A&M College of Marine Sciences and Maritime Studies - Maritime Studies Department

Galveston, TX

- Supplying technical hardware and software assistance to students using a variety of video and audio editing programs, as well as camera and audio equipment
- Taking headshot photos of students, faculty, and staff for resumes, graduation photos, or various professional use(s)
- As lead, meeting with professors and campus organizations to discuss and volunteer for on and off-site career, networking, and resume workshops and events
- Started as Video Consultant in September 2023, and was promoted to current position after 15 months

Data Intern

July 2024 – August 2025

Harris County Deputies Organization - Fraternal Order of Police Lodge #39

Houston, TX

- Integrated 500+ lines of data into a spreadsheet from various PDFs and paper charts
- Developed formulas to calculate average number of days between date received, first court date, and result date
- Developed formula to calculate win/loss ratios for different attorneys and unions, to compare against competitors
- Built charts and graphs for an executive dashboard for executives to quickly interpret data and KPIs to be presented to Harris County Civil Service Commissioners

Box Office Representative

June 2022 – August 2023

Houston Museum of Natural Sciences - Visitor Services

Houston, TX

- Assisted museum visitors in planning their current or future visits, facilitated ticket purchases, and addressed inquiries regarding the museum and membership benefits
- Cross-trained in ticket collection, over-the-phone sales, and customer service
- Averaged 20+ membership sales a week, assigned to check other employees' work for accuracy

PROJECTS

Shark Migration Data Project | Python, Microsoft Excel

August 2025 – Present

- Developed Python code to organize location, environment, and size data for blacktip sharks in the Texas coast
- Used this data to make graphs to display migration date patterns across 40+ year time span
- Wrote dynamic code to be used for different projects in the future, e.g. different sharks or bays
- Currently using graphs and cleaned data to find return rates of sharks and potential causes for no return
- Independently executed project to support a marine biology professor's research, outside of course load
